-Thereafter, Standard Price and at the door rate: \$35 all guests.

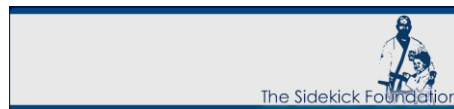

Dear Sponsor,

Your participation in this Community event directly **impacts** the lives of those in need of support and growth. The moving arts, as well as the social and outdoors activities provided by the recipients of your donations serve to enrich the quality of life, as well as to empower the children in these programs.

This is our seventh year hosting this family and motivational event. Your sponsorship will afford your organization exceptional exposure. We expect over 600 attendees, most of whom are residents of Coral Springs, Parkland, Coconut Creek, and surrounding areas.

The Sunshine Kids is a non-profit organization dedicated to children with cancer. Established in 1982, they are committed to providing positive group activities and emotional support for young cancer patients. The Sunshine Kids provides a variety of programs and events, free of charge, for kids who are receiving cancer treatments in hospitals in Florida and North America. www.sunshinekids.org

The Sidekick Foundation is a non-profit organization which provides relief to the distressed and or the underprivileged by increasing awareness of the benefits of marital arts training to improve mental and physical health, and providing scholarships for training.

Autism Speaks is the nation's largest autism science and advocacy organization, dedicated to funding research into the causes, prevention, treatments and a cure for autism; increasing awareness of autism spectrum disorders; and advocating for the needs of individuals with autism and their families.

In 2004, **USK Karate Academy** recognized the need for a program for children with special needs. Children aged 7-17 living with autistic spectrum disorders, Asperger's, Down Syndrome, social skills or communication deficits, chronic emotional, physical or developmental disabilities and who are high functioning and mobile are candidates for this program. USK Karate allocates funds to serve these students, the Baby Boomer students, and at risk students and will also fund special projects to better support these activities.
